

P 95

PREWASHER
P95

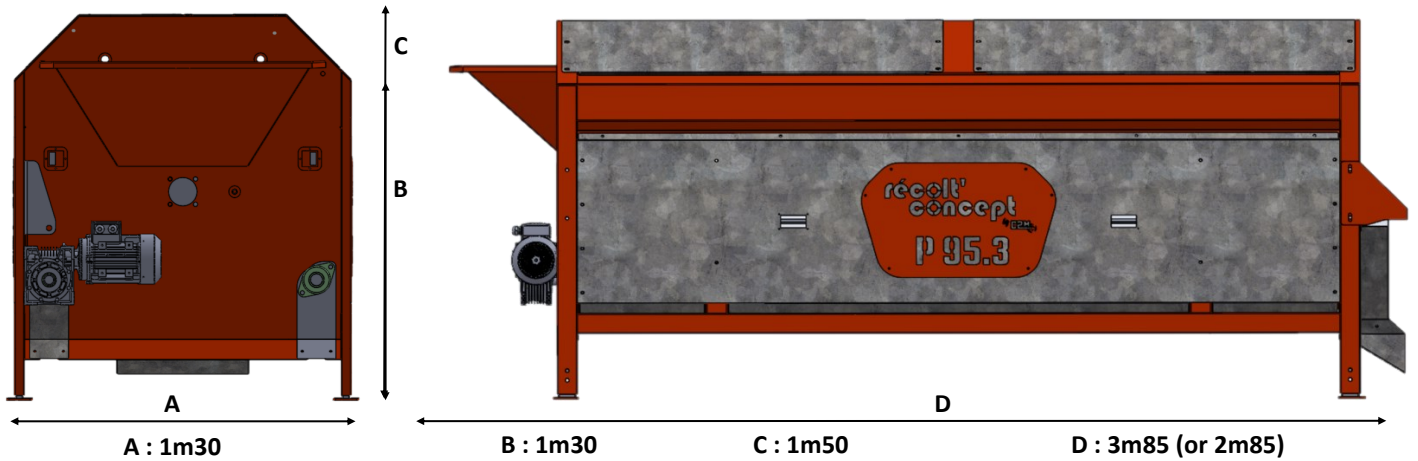

HIGH FLOW PRE-WASH

The pre-wash stage provides a quality first wash that will clean your fruit and remove the first large pieces of crop waste. Thanks to its 950mm drum, the P95 allows you to wash at high speed.

It can also be combined with our other washers for a more complete action (peeling/brushing).

With its robust design, our P95 will accompany you season after season.

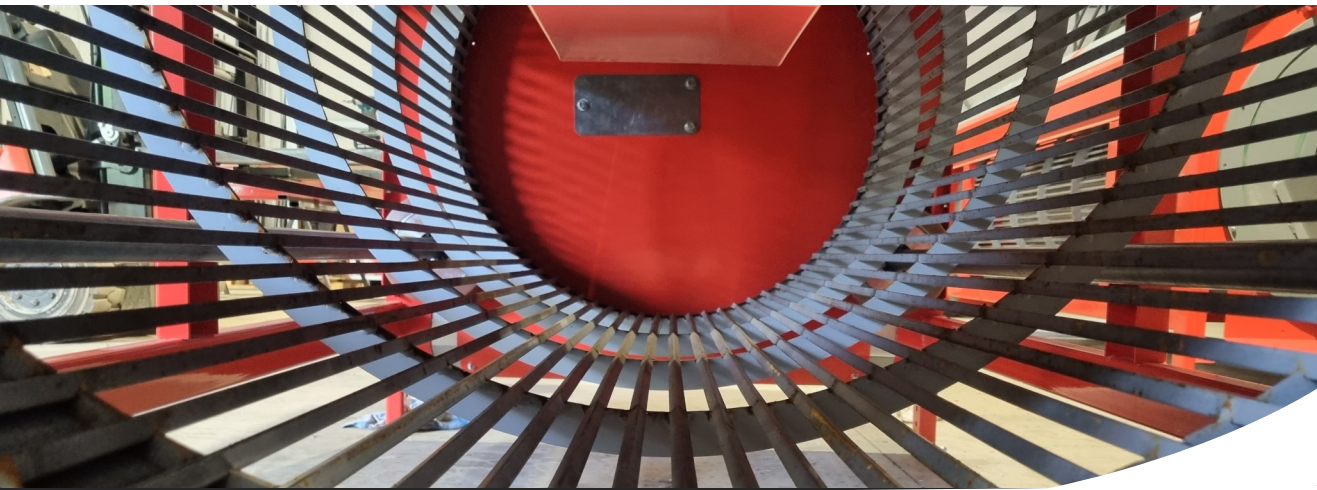

TECHNICAL CHARACTERISTICS

OPTIONS

Variable speed drive

2 inch recirculating water ramp

MOTORIZATION	1 motor 2,2Kw
PERFORMANCE	Up to 15m ³ en continuous raw nut volume
WATERING	2 booms
DRUM	3m or 2m long and 950mm diameter
WEIGHT	1100 kg

04 56 33 74 54
