

EC 95

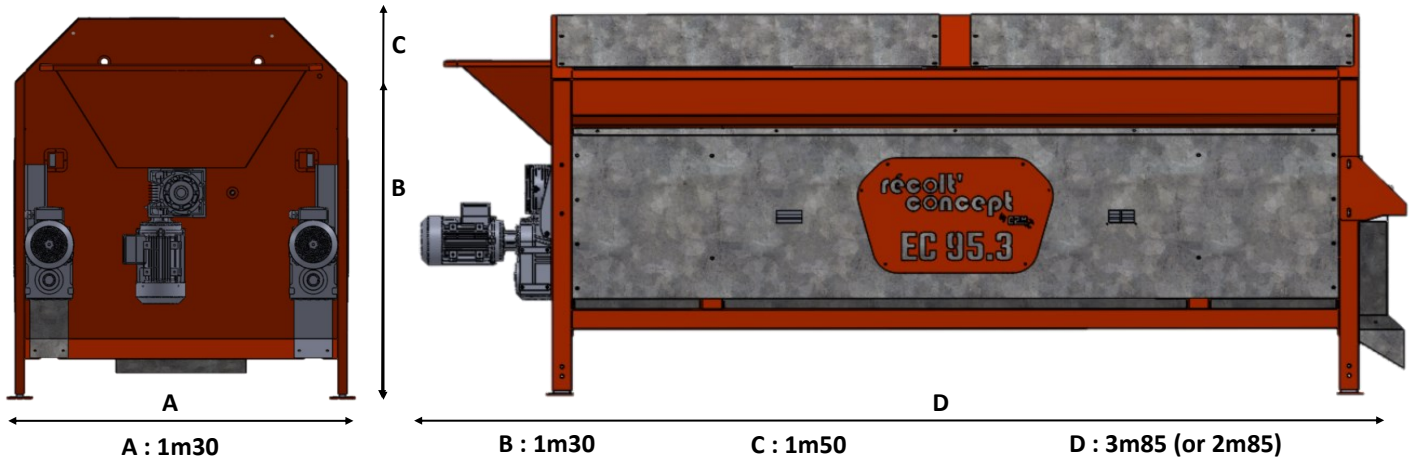

**WASHING-SHELLING
MACHINE EC95**

ONE MACHINE, TWO FUNCTIONS

With the EC95, the washing and shelling stage are combined in one machine. The plates shell green nuts, remove unwanted or brittle nuts and also clean the shell of your fruit.

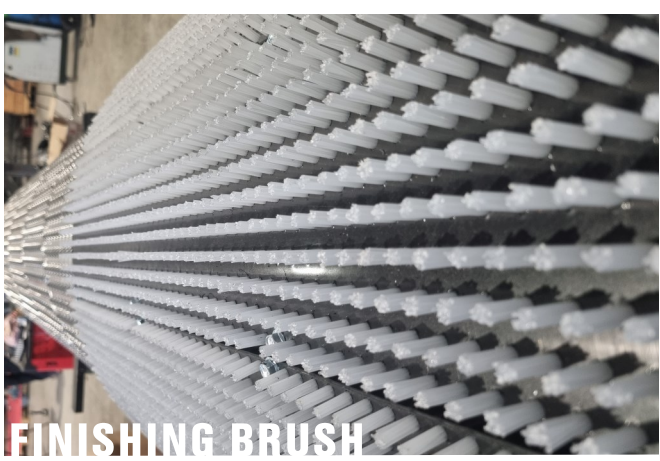

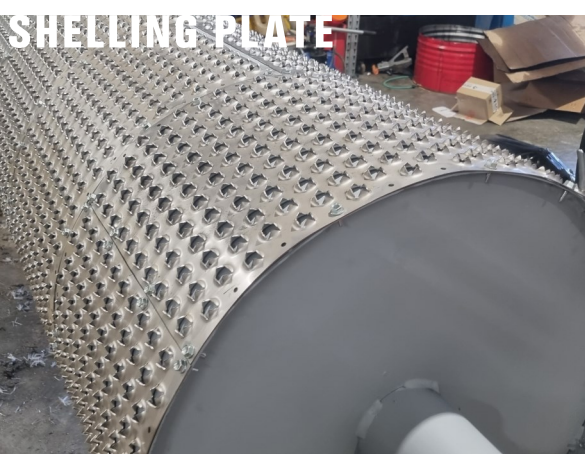

Optional finishing brushes make this a very complete machine. Thanks to its 950mm drum, the EC 95 also has a high wash rate. Its robust design will guarantee you a smooth operation season after season.

TECHNICAL CHARACTERISTICS

OPTIONS

Short finishing brushes	MOTORIZATION	2 motors 2,2Kw + 1 motor of 4Kw
Regulation of the washing flow	PERFORMANCE	Up to 9m ³ continuous raw nut volume
Economical option: variator only on rotor and manual door opening (without electrical box)	WATERING	2 booms
	DRUM	3m or 2m long and 950mm diameter
	WORKING SPEED	Adjustable drum and rotor speed
	WEIGHT	1600 kg
